The amendment received 16 February 2006 has been made of record. Claims 1-10 are pending.

The objection to the abstract contained in the previous office action is withdrawn in view of applicants' amendment.

The rejection under 35 USC 103 contained in the previous office action is withdrawn in view of applicants' arguments.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 9 recite chemical structures in which a broken line in parallel with a solid line is depicted. This structural depiction is commonly known to represent resonance structures. Applicants do not intend a resonance structure. Appropriate correction is required.
